

TEACHER STAFFING & COURSE ACCESS

Career & Technical Education (CTE)

Big possibilities start with access to the right courses.

THE CHALLENGE

A hard-to-fill CTE position can limit courses and interrupt career pathways. Your district needs instructional capacity to sustain and expand opportunities. Fullmind connects students with live educators who support career-connected learning.

How Fullmind helps

Protect Access to Career Pathways

Address instructional staffing gaps that can limit access to career-connected coursework.

Broaden Course Opportunities

Explore additional offerings with educator support beyond your local hiring pool.

Connect Learning to Future Goals

Help students connect coursework with career interests, further education, and opportunities after graduation.

Where our educators live

How it works

1

Review Course Needs

Identify staffing gaps, course priorities, and instructional requirements with your district.

2

Confirm the Instructional Fit

Review available educator expertise and coordinate curriculum, scheduling, and school responsibilities.

3

Launch and Support

Deliver live virtual instruction with ongoing coordination between the educator and school team.
