

TUTORING & ACADEMIC INTERVENTION

High Dosage Tutoring

More practice. More encouragement. More chances to grow.

THE CHALLENGE

Learning gaps need more than occasional extra help. Your team needs time and capacity to provide consistent, targeted instruction. Fullmind delivers recurring live tutoring focused on priority skills and informed by student progress.

How Fullmind helps

Target Specific Learning Gaps

Focus live instruction on priority skills, with support tailored to students' current understanding.

Build Skills Through Consistency

Provide recurring practice, timely feedback, and educator guidance to strengthen understanding and confidence.

Inform Your Next Intervention

Use progress updates to identify growth and areas where students may need additional support.

How it works

1

Set Learning Priorities

Identify students, review learning needs, and establish goals with your school team.

2

Establish a Consistent Schedule

Arrange recurring live virtual tutoring aligned with district priorities and student needs.

3

Review and Refine

Monitor progress and adjust instructional focus as students develop their skills.
